Subject: Open Physician Positions

Dear colleagues,

Every other month, the PPFA Medical Services Department compiles a list of open physician positions at Planned Parenthood affiliates across the country and shares this list with external partners for them to share with their members. These partners include: the National Abortion Federation (NAF), the Fellowship in Family Planning, Medical Students for Choice, Physicians for Reproductive Health, the Ryan Residency Training Program, RHEDI (Reproductive Health Education in Family Medicine), RHAP (Reproductive Health Access Project), Society of Family Planning (SFP), and Clinical Abortion Staffing Solutions [(CASS), a second iteration of Creating a Clinician Corps (C3) jointly managed by NAF and PPFA to help abortion providing sites recruit clinical staff].

We would be grateful if you would share the email below with your members, either by forwarding it to your membership listservs or posting the information on your website.

Please let me know when the email has been shared or been posted, either by CC'ing me on the group email or emailing me directly.

Please let me know if you have any questions or concerns.

Thank you for all you do,
Gillian

Medical Services

Dear Family Planning colleagues,

I am writing to tell you about open physician positions at Planned Parenthood affiliates across the country.

Planned Parenthood is the nation's most trusted sexual and reproductive health care provider and advocate with a presence in all 50 states and the District of Columbia. Planned Parenthood's 49 affiliates operate over 600 health centers nationwide, delivering vital sexual and reproductive health care, sex education, and information to millions of people of all genders, including young people. Planned Parenthood health centers engage in research and advocacy and provide a variety of sexual and reproductive health and preventive health care services, including abortion, contraception, STI testing and treatment, and health screenings. Some Planned Parenthood affiliates also offer gender affirming care, primary care, infertility services, colposcopy, prenatal care, general gynecology, and vasectomy. We seek health care professionals who are dedicated to offering patients high-quality, evidence-based, patient-centered, affordable medical care.

Listed below are currently available physician positions. Please click on the links to access the job descriptions and information about applying. Locations listed where specified.

Covering Physician
